The 8-Engine Organic Growth Framework

1. Social Media Organic

Reels, carousels, UGC on FB + IG driving link-in-bio traffic

2. WhatsApp Commerce

Catalog, broadcasts, order tracking - highest converting channel

3. SEO and Blog

Rank for supplement keywords in Pakistan - scale existing blog

4. Email and SMS

Welcome series, abandoned cart, post-purchase upsell

5. Reviews and Trust

Systematic review collection and customer stories

6. Bundles and AOV

Raise average order from ~Rs. 875 to Rs. 1,500+

7. Referral and Loyalty

Give Rs. 100, Get Rs. 100 - customers as salespeople

8. B2B and Marketplace

Pharmacies, clinics, Daraz - use nationwide distribution

Formula: $\text{Revenue} = (\text{Traffic} \times \text{Conversion} \times \text{AOV}) + (\text{Repeat Customers} \times \text{Frequency})$. Target: 3x traffic, 1.5x conversion, 1.7x AOV = ~7.6x revenue potential over 12 months.

Engine 1: Social Media Strategy

Facebook + Instagram - your free traffic machine

Content Mix (Post 1-2x daily on each platform)
